Professional Skills

Languages

- HTML
- CSS
- JavaScript
- TypeScript
- C#
- T-SQL
- GraphQL

Databases

- MongoDB
- MS SQL Server
- SQLite
- Firebase

Frameworks and Libraries

- React
- Angular 2+
- AngularJS
- .NET 6
- .NET (Core)
- ASP.NET MVC
- ASP.NET Web API
- Razor
- Entity
- LINQ
- Express.js
- Ionic
- Bootstrap
- Material UI
- Angular Material Design
- APIs
- Web API 2, REST APIs, Stripe, WooCommerce API, Google Maps
- iText
- BuildFire SDK

Tools and Enviroments

- Visual Studio
- Visual Studio Code
- iTextPDF
- Git
- GitHub
- Figma
- Babel
- Node JS
- Webpack, Gulp, NPM, Yarn
- Azure
- Jasmine

CI/CD Pipelines

- Github Actions
- Azure DevOps
- Jenkins

Paradigms

- Agile Software Development (Scrum)
- Microservices
- Serverless
- Model View Controller (MVC)
- Refactoring
- Clean Code
- Unit Testing

Work Experience

Software Engineer at BuildFire

January, 2020 - July, 2023

- Developed Mobile Apps based on Apache Cordova (Vanilla JS, ReactJS, AngularJS, NodeJS, Firebase, MongoDB).
- Writing technical specifications, project requirements and providing project documentations.
- Developed resuable components for future use within the BuildFire SDK such as Control List View, Widget List View, Content Slider, Swipeable Drawer. These components have intention of making the UI more standardized and lowering time cost at developing such features.
- Developed dozens of features/plugins that are being daily used by more than 1.000.000 users

- Bugs fixing and support for production apps
- Helping other team members with guidance, pair programming and knowledge transfers
- Participated in peer code reviews
- Interviewed the candidates
- Defining and executing onboarding process

Full Stack Engineer at https://dass.ba/
March, 2022 - August, 2022

- Developed survey system that allows users to earn money by completing surveys.
- Contains CRM for managing users, demographic data, surveys and payments
- Contains four different roles: Admin, Collaborator, Survey Buyer, Examinee
- Infobip integration for messaging system (sms/email)
- Zoho mailing service
- Mobile Friendly

Stack:
- Angular 13 - Frontend
- .NET 6 - Backend
- SQL - Database
- Azure

Full Stack Engineer at Vatrosistemi d.o.o
May, 2021 - February, 2022

Developed web and mobile application for managing the whole company.
Web application allows administration to keep track of:
- Work being done inside the company, upcoming schedules etc.
- Monitoring workers and their success
- Any activity in the system

Mobile application allows service workers to get their daily work done. Some of the features app includes:
- Barcode scanning using Zebra devices
- Geo location tracking (admin can track workers on the map)
- Offline mode

Stack:
- Angular 11 - Frontend
- .NET 6 - Backend
- SQL - Database
- Ionic + Angular - Mobile Application

Full Stack Engineer at http://agrosym.ues.rs.ba/
Jan, 2020 - March, 2020

Developed a website for one of the biggest agriculture symposiums in Europe.
Some of the features website includes:
- Language translations - English/Serbian
- Online registration for attending the symposium

Internship at Prointer
October, 2019 - December, 2019

While participating in educational IT project from country I was selected to join internship in the Prointer company. I had a senior developer which was my mentor for the time being there. Developed C# application for CRUD operations in SQL database. Developed full stack intern application for the company which utilizes Angular, C# and SQL. I was offered a job there but better oportunity came up.

Education

Java - development of client-server distributed applications and web services ICBL, Banja Luka (Bosnia and Herzegovina)
2019 - 2019

Participated in country project of educating people to get into IT. Went to Java course where I have learned basic concepts of of it and developed few small applications during scholarship. Been selected as best out of 100 people that were attending on the project. Helped in various classes (Angular, PHP, C#, QA) to people that needed guidance or any kind of help.

C# Programming Basics Course
2018 - 2018

Learned basics of using C# in development
